

About Us

Hazard 101 equips clients with essential training and certification in blood-borne pathogen safety and hazard communication.

We offer a comprehensive Hazard Program that includes providing hazard containers, sharps, and bins for infectious waste, along with scheduled routine pickups. Additionally, we offer flexible cleaning and disposal services on a per-job basis.

Our commitment is to empower clients with the tools and knowledge to maintain safe, compliant environments.

Hazard 101

Our Mission

At Hazard 101, our mission is to create safer, healthier communities by delivering top-tier hazardous waste management services. We are committed to protecting both people and the environment through comprehensive disposal, training, and education programs.

Our Skills

Our expertise spans hazard identification, regulatory compliance, advanced waste disposal, and environmental remediation. We provide tailored training and solutions, ensuring safety and efficiency in all aspects of hazardous waste management.

Our Services

Cleaning

Expert hazardous waste cleaning that transforms contaminated spaces into safe, usable areas with precision and care.

Hazard Program

Our Hazard Program provides reliable infectious waste bins with scheduled pickups, ensuring safe and compliant disposal every time.

Trainings

We offer comprehensive training programs that certify individuals in blood-borne pathogen safety and hazard communication, empowering them with the knowledge to handle hazardous materials safely.
